

Confederation of Indian Industry

Concurrent with

Global Platform for Railway Technology & Services
22-24 October, 2019 | Aerocity, New Delhi, India

In recent years the rail industry has increased its focus on security and passenger safety provoked by a rise in incidents of such as thefts, vandalism, and even terrorism. The bombing events in different parts of the country and overseas are signs that rail and metro systems are also vulnerable points for carrying out terrorist attacks against large groups of people. For the safety of passengers it has become imperative for the Indian Railways and the Urban Mass Transport System in India to install modern and effective security systems.

But how do you effectively protect an infrastructure as geographically diverse as Indian Railway network? With stations, tunnels, tracks, bridges, and rolling stock spread over hundreds of kilometers, it presents quite a formidable challenge.

Based on this theme Confederation of Indian Industry (CII) is organizing the first security focused Railway exhibition and conference along with the 13th IREE from 22 – 24 October at the Aerocity, New Delhi.

Reasons to Visit

Meet

Look out for our Online Business Matching to schedule meetings with exhibitors, delegates and speakers prior to your visit.

Network

Industry networking receptions allows you plenty of opportunities to expand your business contacts.

Learn

Learn from security think-tank and best practices across the world from experts and commercial companies at the Rail Secure 2019.

Source: Vendor Development

Source for the latest information communication technologies, public safety and security products, vehicles, robotics and unmanned systems and gears and accessories and many other innovative solutions that will address your security challenges of the Indian Railways.

Exhibitor Profile

- Cyber, Internet & Related Technologies
- Command, Control, Communication & Information
- Emerging & Other Technologies
- Identification Technologies
- Information Processing & Data Analytics
- Smart Systems
- Passenger Security
- Station Security
- Train Security
- Fire Alarm and voice evacuation systems
- Electronic Rail solutions
- Customer Interaction services
- Building management systems
- Automatic Service Solutions
- Access Control Systems
- Efficient Energy Services
- Drive System and Components

Visitor Profile

By Industry

Homeland Security Department/ Division

- Indian Railway Board and other Zonal Units of Indian Railways
- RPF – from different zones
- RITES
- Civil defence
- Immigration and border security
- Police
- Prison

Critical National Infrastructure

- Airport
- Energy and utility agencies
- Harbour
- Public urban transport
- Other government facilities

Business Institutions

- Building developers (retail, commercial, residential)
- Industrial parks
- Logistics
- Luxury brands and retailers
- Oil and gas
- Pharmaceutical
- Postal services

Public Infrastructure

- Museums
- Parks
- Stadiums
- Tourist attractions

Space Booking

Space Type	Domestic Members (INR per sqmt)	Domestic Non-members (INR per sqmt)	Overseas Exhibitors (USD per sqmt)
Indoor raw space (minimum 36 sqmts)	11000	12000	310
Outdoor raw space (minimum 36 sqmts)	6500	7000	230
Indoor built up space (minimum 12 sqmts)	12000	12500	340
MSME	11000	12000	-

Electricity

Raw Space

Domestic participant: Rs 4000 per KW | International participant: USD 90 per KW+ GST 18%
